

SYLVAN

PONTOON BOATS

The revolution is here.

With RPT, Revolutionary Planing Technology, Sylvan changes everything about pontoon performance. Our exclusive tube design slices through the water with sports car handling and runabout exhilaration. Its unique V-shaped tube provides more top speed per horsepower and dramatically improved fuel efficiency. RPT is the revolution in pontoon performance. And it's only at Sylvan.

FROM OUR FAMILY TO YOURS.

Sylvan Marine traces its history back to the late 1940s, when it was founded near Sylvan Lake in Wolcottville, Indiana. Since 1970, the Sylvan brand has been part of Starcraft Marine and the Smoker Craft Family of Products and continues to be known for high quality, innovative pontoons. You can count on Sylvan for the best pontoon values for every budget — backed by the very best service and warranties. After all, it's our family's tradition.

A EXCLUSIVE CROSS CHANNEL CONSTRUCTION

features heavy-duty hat channels double through-bolted to the deck risers.

B DECK AND FLOOR

features 3/4" 7-ply pressure-treated plywood through-bolted and screwed to the hat channels. Lifetime limited warranty.

C SPACERS

between the fence bottom and the deck allow water to drain easily and cut drying time in half.

D FENCING

is foam-backed to prevent rattling and reinforced for added strength.

E GATE

construction offers the safety of pinch-proof protectors and Posi-Lock® latches.

F STAINLESS STEEL SAFETY RAILS

are used exclusively for increased strength and reliability. Anodized railings provide a clean look and feel.

"Simply Amazing Performance"

"For increased performance, hole shots, and quicker time to plane, the RPT pontoon gives amazing performance to Sylvan pontoons."

— Executive Editor, *Pontoon & Deck Boat Magazine*, Brady L. Kay

THE SCIENCE OF BETTER PERFORMANCE.

The RPT planing hull lifts the tube on top of its own bow wave. The tube displaces less water, which creates less resistance and drag and produces greater speed with less horsepower than a traditional tube shape.

Above the water line, RPT tubes are shaped like traditional tubes to accommodate the strength of the industry-leading Sylvan deck structure.

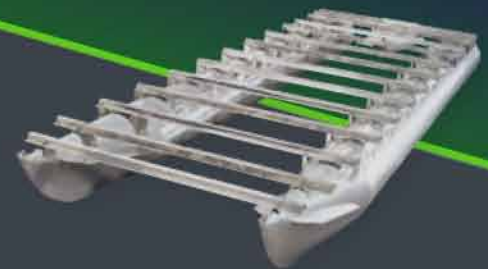

22 ft. Sylvan Signature models (equipped with RPT) have achieved speeds in excess of 33 MPH with 115 HP engines and 42 MPH when powered by 150 HP engines.

THEIRS Pushes through water resistance

OURS Lifts and planes across the water

CROSS CHANNEL CONSTRUCTION.

There's no substitute for a strong foundation. And that's exactly what you get with our 8' (or 8.5') x 6" x 1/8" aluminum hat channels, with heavy-duty 1/4" rear hat channels providing extra support for the motor. Our channels are double through-bolted onto deck risers every 24" for exceptional support and structural integrity. This unique design actually doubles the amount of z-channels found in other pontoons.

Mandalay 8625
Shown with optional bar and stools

Mandalay

Innovation meets luxury in the exclusive Mandalay series. You'll find every comfort and feature you've dreamed of in a pontoon — and more, with its awe-inspiring driver's console, impressive galley area and optional bar with stools. Add the optional RPT tube package, and you'll experience truly peerless performance.
