

SYLVAN FISHING > 2 0 0 1

passion.

You're there.

In the starting blocks of a perfect day.
That moment right before your competitive
juices start flowing. Before all thoughts of
trophies and limits.

At Sylvan Marine, we build boats to take
you there. Sleek, exciting boats that slip
through the quiet to your favorite spot.
Rugged, durable, feature-packed boats for
your whole family to enjoy.

We've engineered serious fish-fighting
craft for over five decades. And through
it all one thing has remained constant:
Our passion for fishing.

1900 | EXCURSION

You've got it down to a science.

Rat tails, poppers, spoons — you're armed and ready with everything you need for the right fish in the right place at the right time. And when you put it all in a 1900 Excursion, you know it'll be a good day.

That's because the 1900 Excursion comes loaded with secret weapons. Its Gull Wing hull gets you out of the hole fast. Its 5 keels give you peerless control. And its full complement of instrumentation puts you right where you want to be.

To keep your catch healthy, both the bow and stern livewells are lighted, aerated, recirculating and timed. And there's a trolling motor panel as well as 3 battery compartments. It also features a curved walk-thru windshield, 3 bass seats, 40 gallon fuel tank, 2 baitwells, plenty of storage and much, much more.

Sure there's an art to fishing. But in the 1900 Excursion, you'll also have great engineering on your side.

1600 | EXPEDITION

What video games?

Swap the kids' joysticks for a rod and reel, and you've got instant quality time. Just pile everyone in the 1600 Expedition, and the day is yours. There's plenty of room, with a curved walk-thru windshield, 3 bass seats and storage for all your gear. And with a 24 gallon fuel tank and a 30 gallon aerated livewell, you can stay out for as long as they're biting.

The 1600 Expedition also features our Gull Wing hull with a 10 year warranty, 3 keels, twice-baked urethane paint and a 5 year carpet warranty.

So gather up the life jackets and head for where the lunkers hide. Let them use that hand-eye coordination to snag something real.

1600 | EXPLORER

Hook 'em when they're young.

After all, the best fishing buddies are the ones you teach yourself. And the 1600 Explorer is just the boat to begin a lifetime of bonding over a bucket of worms.

It features a full complement of standards and options, from its 3 comfortable bass seats to its plentiful storage for rods and gear to its 14 gallon aerated livewell. It also has a trolling motor plug, battery compartment and 24 gallon fuel tank.

Other highlights of the 1600 Explorer's rugged, reliable construction include the Gull Wing hull with 10 year warranty, treated floor with lifetime warranty, twice baked urethane paint and a 5 year carpet warranty.

Who knows, with a boat this well built, you might use it to hook his young ones, too.

CONSTRUCTION

Fishing

Console

Many of our models feature custom-molded consoles with luxury VDO gauges. On all our boats the gauges are easy to read, with the switches and circuit breakers right at your fingertips. Tilt steering is widely available, along with either hydraulic or anti-feedback steering. On dual console models, you'll also find a lockable glovebox, molded cup holders and other amenities.

Seats

To ensure the highest quality, all our seats are built here by us. Resilient foam padding provides long-lasting comfort and support, and our handsome, high-grade marine vinyl is both durable and easy to clean. And for your safety, we install every seat with pinch-proof hinges.

Apparel

Your boating wardrobe will be complete with exclusive Sylvan shirts, jackets and hats. Simply order online by visiting our web site — www.sylvanmarine.com

So call us obsessed.

Your Sylvan fishing boat is the result of the best ideas in design and engineering. Peel back the layers and you'll find that every detail is constructed to give you the ultimate in safety, comfort and control.

Premium Grade Marine Aluminum

Sylvan boats feature tempered, tension leveled 5052 H34 marine grade aluminum, heavier than the industry standard.

Twice Baked Urethane Paint

Sylvan employs an in-house paint process that starts with a special aluminum grade primer to assure proper bonding, and bakes two coats of urethane based paint to the hull. This process increases toughness and provides a finish that's durable, scratch resistant and protects the color and styling of your boat for years to come.

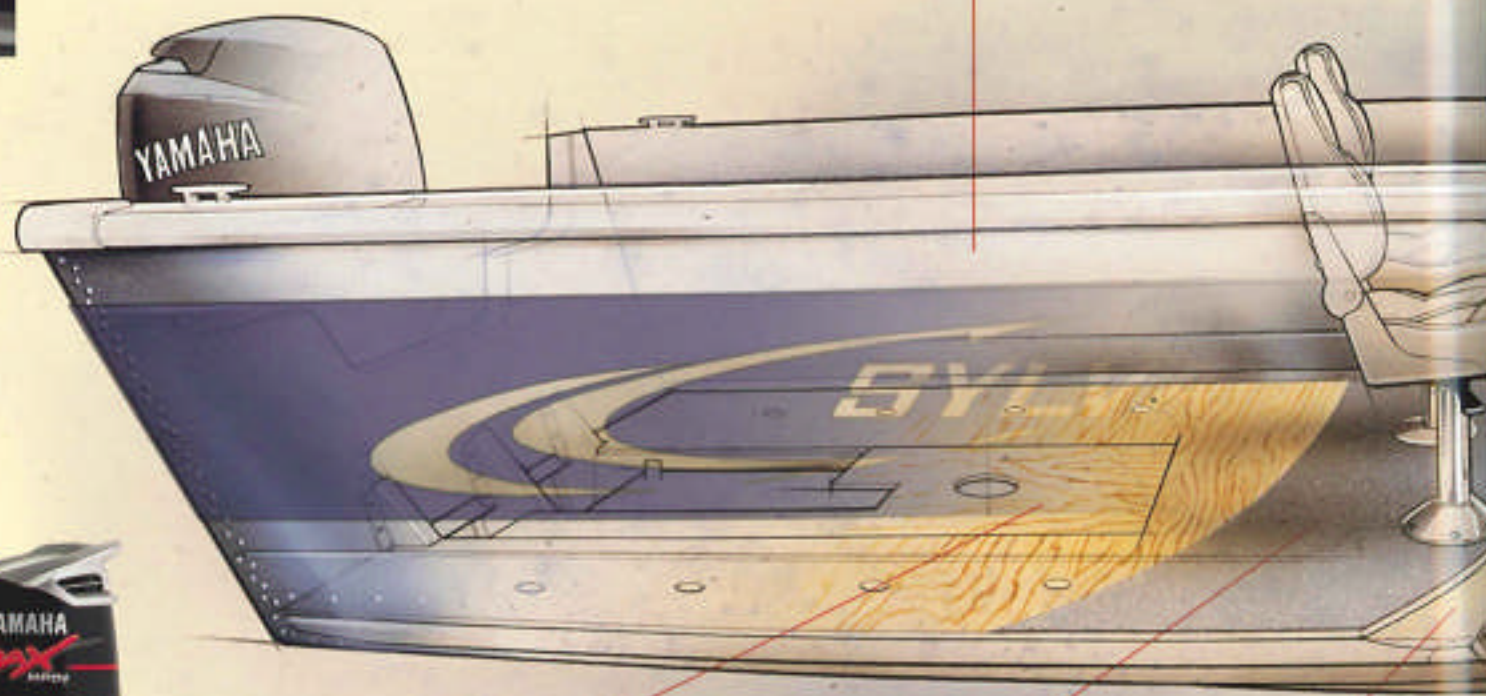

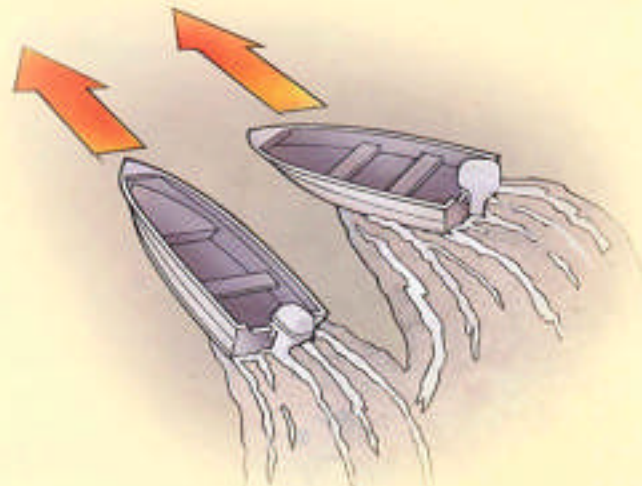

The Gull Wing Hull

Our Gull Wing hull features a rolled-V design that gets you on plane faster and provides a drier, steadier ride with less bounce and better support while turning.

5-Keel Construction

Up to 5 external keels give you better control when cornering and extra stability on windy days. They also provide additional protection from unseen objects beneath the surface.

Yamaha Engines

The choice is yours. To ensure that you get the power you want for your Sylvan, we offer a full line of Yamaha® outboards.

XL Plywood Floors

Our floors are constructed with specially treated XL plywood that won't warp or rot and has a lifetime warranty.

Carpet

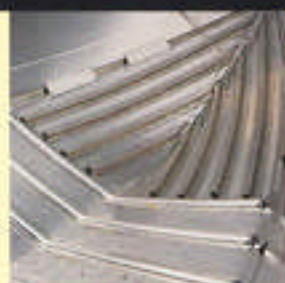

Our premium grade, easy-to-clean 100% UV stabilized marine carpet is backed by a 5 year warranty.

Urethane Foam

After the floor is installed, we fill every cavity with gasoline-resistant urethane foam to eliminate water-collecting pockets and give the floor solid support and strength. This also provides maximum buoyancy while giving your Sylvan a quieter ride.

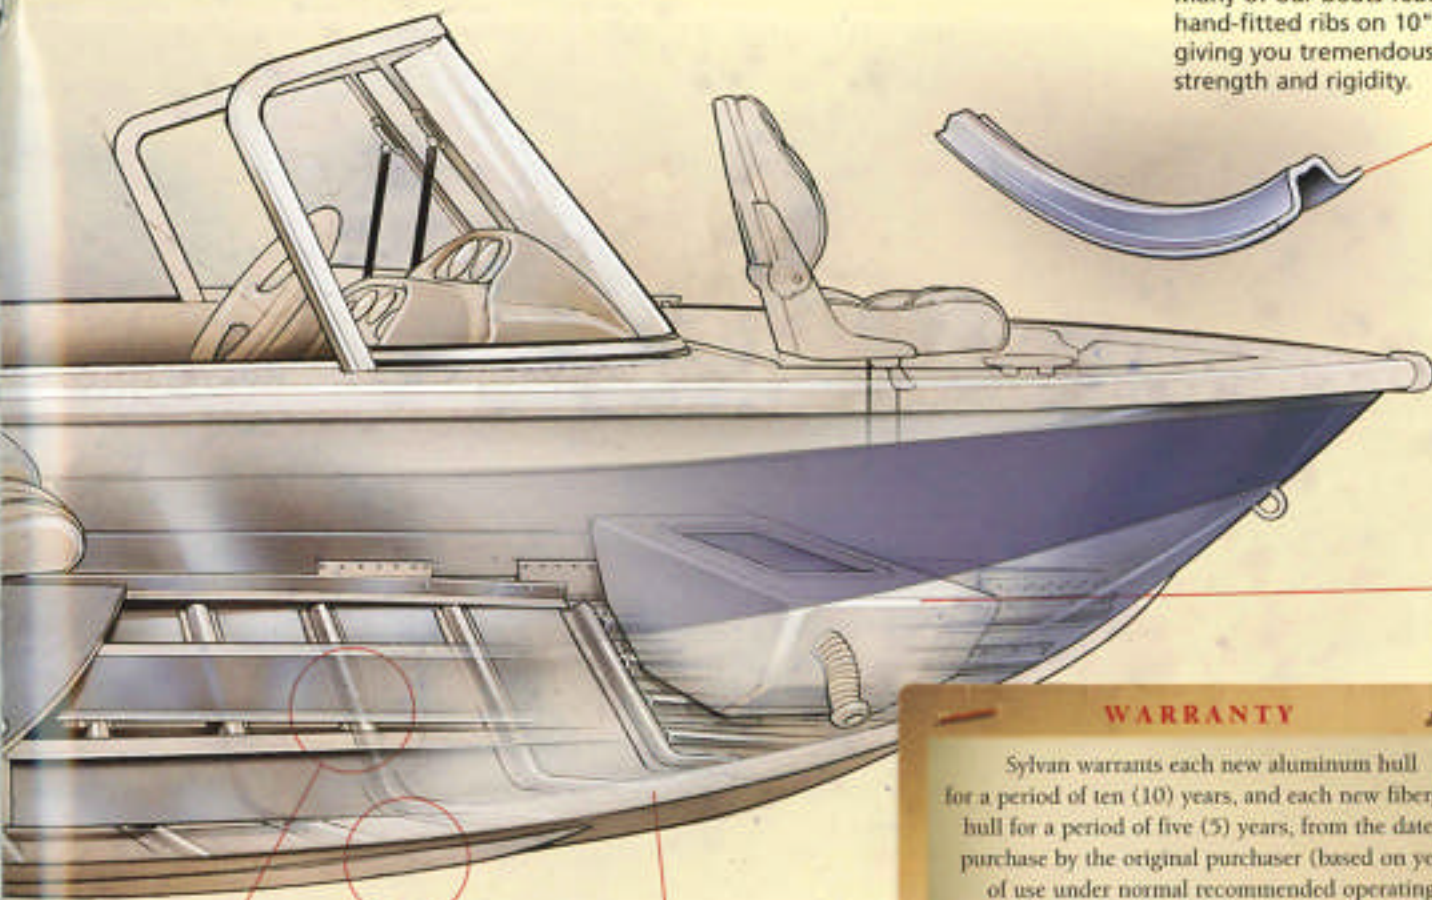

TO THE LAST RIVET.

SYLVAN

The Rib System

Many of our boats feature .125 gauge hand-fitted ribs on 10" centers, giving you tremendous lateral strength and rigidity.

Strength

Many of our Sylvan boats feature a .125 one-piece bottom with .125 gauge hand-fitted ribs on 10" centers giving you tremendous lateral strength and rigidity. We combine that with 5 keels running longitudinally to provide impact resistance and improve lift, handling, bottom support and protection.

Raked Back Bow

It all starts with a .125 one-piece bottom and double riveted joints for increased strength. Our innovative raked-back bow design with integrated spray rail gives you a smoother, drier ride and more room in the bow up above.

WARRANTY

Sylvan warrants each new aluminum hull for a period of ten (10) years, and each new fiberglass hull for a period of five (5) years, from the date of purchase by the original purchaser (based on years of use under normal recommended operating conditions) as described in the warranty folder. A copy of the Sylvan Limited Warranty is attached to each new Sylvan boat, or may be obtained from any dealer or the Sylvan factory.

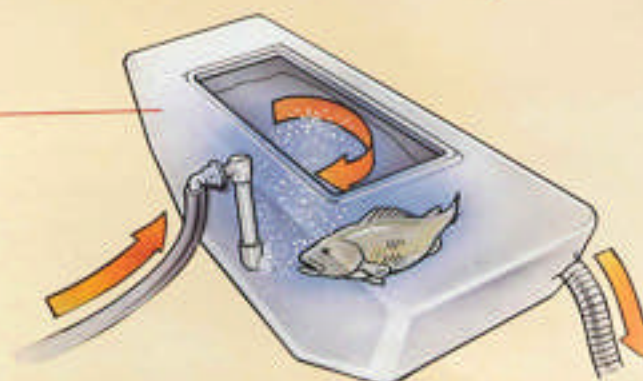

A.I.R.S.

A.I.R.S. Rib System

THEIRS Double Plated

When you're in rough water, strength is everything. That's why our hulls feature the exclusive Advanced Integrated Rib System. Unlike our competitors' double-plated aluminum, this rock-solid structure of hand-fitted, hat-shaped ribs provides tremendous longitudinal strength and rigidity.

The Flow Rite Livewell System

The fill pump draws in water, pumping it into the livewell so it circulates at the bottom of the tank. An air hole in the top of the fill pipe lets air mix with the water, creating the aeration necessary to keep fish alive and healthy. The fill pump can be operated manually or on a timer with extra water draining out of an overflow. A separate recirculating pump works in a continuous loop to keep aerated water moving in the livewell. This is ideal for times when the outside water is undesirable, like when you're refueling dockside or drifting through stagnant water. For easy cleaning, the livewell has a bottom drain, and the hose runs through the transom, not the floor.

COVER & ENGINE OPTIONS.

Fishing

Fisherman's Top, Curtains and Covers

Stay high and dry with the Fisherman's Top and complete curtain package, available on most Sylvan models. Whether it starts to rain, or you simply need a little shade, the top and side, aft and walk-thru curtains go up quickly and easily. In addition, the top comes with a boot for easy storage. The bow cover and mooring cover keep your boat clean and ready to go.

Mercury Engines

Sylvan is proud to offer a full line of reliable Mercury and MerCruiser power options.

MERCURY
The Water Calls

**V 1 8 0****V I P E R**

When you're out there, you're the predator.

Meet the V180 Viper. With its 7-layer fiberglass construction and ISO NPG marine gel coat, it'll take on whatever big, rough water you've got in your neck of the woods. It features two 30 gallon lighted, aerated, recirculating, timed livewells, as well as a big 37 gallon fuel tank.

There's plenty of storage for a day's worth of gear, 3 bass seats, a trolling motor panel and 2 battery compartments. In addition, the V180 Viper sports a curved walk-thru windshield, anti-feedback tilt steering and AM/FM stereo cassette.

So if you're headed into serious water, think Viper. It'll help you make the most of your place on the food chain.

1900 | NAVIGATOR

Just in case you happen to prefer vinyl.

After all, from the rod box to the tackle box, you've got your own personal style. That's why at Sylvan we offer so many choices of fishing craft.

Take for example the 1900 Navigator. Its vinyl flooring makes it ideal for salt water conditions. Its impressive features also include a 30 gallon lighted, aerated, recirculating, timed livewell; a 40 gallon fuel tank; a trolling motor panel and 3 battery compartments. In addition, it's reinforced for downriggers.

And, with the 1900 Navigator, you can take along everything you need for a day on the water in its roomy bow storage, lockable glove box, port and starboard console storage, and two rod storage spaces.

You know what you want - you want a boat that suits you. At Sylvan, you'll find a perfect fit.

1600 | SPORT TROLLER

Back to basics.

It's summertime and class is in session — time to let the lunkers take him to school. And where better to teach him the secrets of your success than at the tiller of a 1600 Sport Troller.

This is one tough, reliable 16 footer. With 2 bass seats, plenty of storage, a lockable glove box and a trolling motor plug. And most importantly, a 21 gallon aerated livewell to get his keepers home safely.

Ten great reasons the decision is easy.

Quality

At Sylvan, we offer many different models to meet many different needs. But at the heart of each and every one is a well-constructed, thoughtfully designed boat that's built to last. After all, we wouldn't put our name on anything less.

Service

We believe that customer service begins right here at the factory — with our commitment to our dealer network and our promise to stand behind every boat we build.

History

When you get a Sylvan, you're getting the benefit of decades of experience. That's many years of Research and Development. And many years of relationships with the very best vendors and suppliers in the industry.

Financial Stability

You don't stay in business as long as we have unless you've earned the financial confidence of a vast number of dealers, suppliers, employees and customers. Just one more reason to feel good about becoming part of the Sylvan family.

Nationwide Sales and Support

Our nationwide dealer network offers expert sales and factory-authorized service to water-loving families across the country. Visit our web site at www.sylvanmarine.com to locate the dealer nearest you.

Construction

At Sylvan, we're proud to offer some of the best construction in the industry. You'll find the same high level of quality materials and processes across our

entire line of boats. From the hat-shaped ribs and raked-back bow design of our aluminum V-hulls to our labor-intensive 7-layer fiberglass construction to the heavy gauge, welded chambers of our pontoon tubes. You can be sure your Sylvan is solid from stern to stern.

Broad Product Line

At Sylvan, we love boating as much as you do. And maybe that's why we continue to offer so many different models and product lines. Fishing, cruising, skiing — simply pick your family's favorite activities and chances are, we've got a package that's perfect for you.

Safety

Every Sylvan boat is built to exacting standards set by the U.S. Coast Guard. From flotation and fuel systems to wiring looms, boat beams, depth and freeboard — Sylvan boats are among the safest on the water.

Resale Value

With thousands of Sylvan boats on the water today, Sylvan is one of the most popular and recognized names in the industry. For you, this popularity translates into higher resale values when it comes time to upgrade.

Innovative Engineering

When it comes to engineering, the little things add up to a big difference. Ideas like one-piece bottoms, more lateral ribs, double riveted seams, 5 bottom keels, and a unique seam sealing tape, to name just a few. Simply put, our Research and Development team keeps Sylvan well ahead of the curve.
