PONTOON BOATS

Inspired INNOVATION

THE REVOLUTION IS ON.

At Sylvan, the time had come. Evolution had taken pontoons as far as possible — it was time for a revolution. And with a bold stroke of inspired innovation, the RPT Revolutionary Planing Technology was born. With its exclusive planing hull design, the 27" RPT tube directs, forces

down and slices through the water with less resistance. It handles like a sports car and sprints like a runabout, with more top end speed per horsepower. Plus, you get dramatically improved fuel efficiency. RPT is the revolution in pontoon performance. And it's only at Sylvan.

THE SCIENCE OF BETTER PERFORMANCE.

- RPT planing hull lifts the tube on top of its own bow wave. The tube displaces less water, which creates less resistance and drag and produces greater speed with less horsepower than a traditional tube shape.
- Above the water line, RPT tubes are shaped like traditional tubes to accommodate the strength of the industry-leading Sylvan deck structure.
- 22 ft. Sylvan Signature models (equipped with RPT) have achieved speeds in excess of 33 MPH with 115hp engines and 42 MPH when powered by 150hp engines.

THEIRS Pushes through water resistance

OURS Lifts and planes across the water

CONSTRUCTION

RPT tubes are available on both standard and 3-tube (tritoon) models.

- A** EXCLUSIVE CROSS CHANNEL CONSTRUCTION features heavy-duty hat channels double through-bolted to the deck risers
- B** DECK AND FLOOR features 3/4" 7-ply pressure-treated plywood through-bolted and screwed to the hat channels. Lifetime limited warranty
- C** SPACERS between the fence bottom and the deck allow water to drain easily and cut drying time in half
- D** FENCING is foam-backed to prevent rattling and reinforced for added strength
- E** GATE construction offers the safety of pinch-proof protectors and Posi-Lock® latches
- F** STAINLESS STEEL SAFETY RAILS are used exclusively for increased strength and reliability. Powder coated railings provide a clean look and feel.

CROSS CHANNEL CONSTRUCTION

There's no substitute for a strong foundation. And that's exactly what you get with our 8' (or 8.5') x 6" x 1/8" aluminum hat channels, with heavy-duty 1/4" rear hat channels providing extra support for the motor. Our channels are double through-bolted onto deck risers every 24" for exceptional support and structural integrity. This unique design actually doubles the amount of z-channels found in other pontoons.

ELEVATED CUSTOM-STYLED CONSOLE features expanded leg room and recessed foot hold
