1984 PONTOOONS

**Sylvan
Quality
Standards**

1. Nose cones on all Sylvan boats have up-swept design and are capped with a solid aluminum extrusion for added strength. Spray onto the deck is eliminated by deflectors on both nose cones.

2. Heavy gauge aluminum pontoons are etched for lasting beauty. Bulkhead at every weld seam. $\frac{3}{4}$ " aluminum keel bar runs full length of each pontoon. Heavy cross support channels every two feet.

3. Deck and canopy running lights are prewired. Top lights have quick disconnect plugs mounted on canopy posts. (Supreme line only.)

4. Entire deck edge is trimmed in aluminum extrusion for protection and beauty.

5. Swim deck railing provides extra safety factor and allows entry or exit from higher side. Made of anodized aluminum. (Supreme line only.)

6. Deck railings of $1\frac{1}{4}$ " square aluminum are raised $\frac{1}{4}$ " off deck for drainage. Fully anodized; no oxide rub-off. Advantage 1" etched acid.

7. All Sylvan Supremes have four gates (except 28 I/O and 24 I/O) that open in for safety. Each gate has a vinyl coated latch and welded hinges for extra strength.

8. Deck is exterior plywood treated with Wood-life preservative. Marine pile carpeting covers entire deck.

9. Fence and gate panels of aluminum with color-fast, baked-on enamel. Panels are locked-in by Sylvan-designed extrusion. Color availability: Yellow, Blue, Brown, Rust, Bronze.

10. Double-post canopy uprights permit easy raising or lowering of canopy. Anodized aluminum. Quick disconnect plugs for canopy light wiring. (Supreme line only.)

11. Upholstered, water-resistant pilot's chair. Steering stand upholstered to match pilot's chair. Built-in lockable compartment. (Supreme line only.)

12. All Sylvan canopies are made of weather-resistant fabric. Canopies are color coordinated with deck covering, fencing, steering stand and pilot's chair. Curved design for water run-off. (Four double-post uprights provide solid-support. Supreme line only.)

13. Gates on Sylvan pontoon boats open inward only. And all models (except 28 I/O and 24 I/O) have rear gates for easy access to motor, fuel tank and ski ropes.

14. Fixed transom is made of heavy aluminum with marine plywood motor mount. (Maximum h.p. for long shaft motors is 90-22" tube.) Adjustable transom available at no extra cost for short or long shaft up to max. 35 h.p.
